

Please keep the FM translators! Klove radio is a tremendous blessing to me and thousands of others. I can find out my local news and weather. It has wholesome values and always leaves a positive and encouraging impact. If Klove was replaced with a LPFM broadcaster, me and thousands of others would be lost. This is the only station with any values. Klove provides a great service. They are encouraging and positive. When you're going to work or driving home, it's always a good trip because of Klove.
